# **NYC Traffic Accident Review**

Tony Fraser

2023-09-03

# Assignment:

Use Quarto and GT to ask and answer interesting questions about a dataset.

## About this dataset

This is an official collection of all 2,021,793 New York City traffic accidents between 1-Jan-2020 and 31-Dec-2021 where the damage was reported was reported greater than 1,000 dollars.

# My big question, and my finding!

Ask and answer was the assignment, my ask was only what's in this data and can it be useful. My big finding is, NYC had a tank accident!

## Deal with some of the "human entry" factor

This enitre data set is based on police officers manually inserting data, so much of it needs to be reviewed and slightly recatagorized.
